

NoticeKit Starter - README

Generated: 2026-04-22

NOTICEKIT STARTER

Starter is for one vendor change, one customer notice workflow, and one clean evidence trail.

Files

- subprocessor-list-template.csv: public-facing subprocessor list fields.
- notice-email-templates.md: short, formal, and enterprise notice variants.
- objection-window-tracker.csv: single-change deadline and status tracker.
- internal-approval-checklist.md: privacy, security, product, and counsel review checklist.
- evidence-log-template.csv: proof record for notices and follow-up.
- attorney-review-handoff-note.md: concise packet for counsel review.

Suggested Order

1. Fill out subprocessor-list-template.csv for the vendor change.
2. Complete the internal approval checklist before sending notice.
3. Pick the notice email variant that fits the customer relationship.
4. Track notice date, objection deadline, owner, and status in the objection tracker.
5. Save final notices, page screenshots, recipient evidence, and approvals in the evidence log.
6. Send the handoff note to counsel with open questions before relying on the materials.

Disclaimer

NoticeKit provides operational templates, workflow checklists, and local tools for organizing subprocessor change notices. NoticeKit is not a law firm, does not provide legal advice, and does not create an attorney-client relationship. Your contracts, data protection addendum, privacy notices, customer commitments, and applicable laws may require different steps or wording. Have a qualified attorney review your notices, subprocessors, objection process, and customer communications before relying on them.

Fulfillment disclaimer:
